Double Glazed Vision Panel

PBSC provide installation, servicing, technical advice, product selection and demonstrations for clean controlled environments with **Innovation, Design and Quality** at the heart.

PBSC manufacture high quality clean room, high containment and material decontamination products. When you need areas and staff to be contamination free and protected from pathogens, you need dependable equipment which will maintain critical biosafety levels, achieve sterility and protect data reliability.

Complying with local and global regulations PBSC's products can be designed to meet your specific requirements. Over 30 years knowledge and competence within the specialist sectors, always going through extensive research and development and offering accurate assistance during project planning to consultants, architects and end users to deliver successful projects.

Innovation

Incorporating your requirements to create product ranges to exceed expectations

Design

Leading the way with pioneering design, ensuring customer requirements are achieved

Quality

Delivering high quality products for over 30 years, with rigorous testing and inspection

PBSC is the accepted benchmark by which others are measured...

The search for innovative design, an eye for detail and advanced manufacturing techniques has seen PBSC gain a deserved reputation as the premier supplier within cleanroom environments.

Supporting the customer throughout the process continuing to meet the growing challenges and striving for continual improvement with our ISO 9001 QA processes independently audited and updated on a regular basis.

Description

The standard **PBSC** double glazed vision panel provides a flush glazed finish with a polished stainless-steel architrave.

With many of **PBSC's** products, the glazed screen has no visible fixings to either side, supporting attention to detail.

PBSC provide secure fixings with the sub-frames, these are made to suit the wall thickness and stainless-steel reveal liners.

With this being essential in many different facilities where it is vital to see or be seen, the clean flush finish which **PBSC** is well known for offers a high quality, long lasting easy to clean unit which is visually appealing for any environment, thus reducing possible contamination.

PBSC's vision panels are flexible in size and available in many different versions. These include mullions, lead shielding and fire rated versions.

PBSC also offer panels complete with magnetically operated venetian or blackout blinds.

Vital in facilities where it is vital to see or be seen...

Applications

Essential in many controlled environments to allow natural light and good visibility for safety, being found in pharmaceutical, laboratory, biotech and NHS facilities, the double glazed vision panel can be made to bespoke measurements or to retro fit into existing buildings.

Options

- Fire rated option - Up to 2 hours.
- Mullion for larger openings.
- Acoustic upgrades.
- Integral venetian, roller blind or "Magic" glass.
- 304 or 316 stainless steel construction.
- PPC finish available in any RAL/BS colour.

Key Features

- Flushed glazed vision panels to both sides.
- Overlapping flanges to both sides of the opening.
- Screen printed borders, bonded to the glass.
- Customisation to fit wall thickness.
- No visible fixings.
- High quality, long-lasting performance.
- Easy clean.

PBSC Staying in Control of Controlled Environments
