

## Clean Room Solutions by PBSC

Custom design for Fresenius Kabi's Runcorn site

To help care for critically and chronically ill patients

### Fresenius Kabi UK expands operations in Runcorn, England...

Fresenius Kabi is a global healthcare company specializing in lifesaving medicines and technologies for infusion, transfusion and clinical nutrition. With products and services used to help care for critically and chronically ill patients.

Fresenius Kabi products portfolio comprises of a comprehensive range of I.V. generic drugs, infusion therapies and clinical nutrition products as well as the devices for administering these products.

The primary focus at Fresenius Kabi who's head office is based in German, is on meeting the needs of patients and healthcare

professionals while acting responsibly to fulfill their ethical and legal duties.

With the corporate philosophy of "caring for life", Fresenius Kabi is committed to putting essential medicines and technologies in the hands of people who help patients and finding the best answers to the challenges they face.

The building of the new facility began in 2015 with an investment of around 9.5 million.

**PBSC** who are a leading manufacturer of clean room, high containment and material decontamination products around the world provided the expertise and solutions allowing Fresenius Kabi to increase their supply of lifesaving medicines.

## Products

- Break Out Panels
- Vision Panels
- Trolley Hatches
- Wall Mounted Hatches

## Solutions & Results

The new distribution and operations center stood next to the existing headquarters in Runcorn providing the warehouse capacity required for further growth in the UK hospital and homecare businesses.

Main goal: The construction of the new cleanroom environment and refurbishment of the existing grade B areas to use best available materials and technology in accordance with EU GMP regulatory requirements.

Responsible for ensuring the design meets all the conditions related to Health & Safety including Construction Design Management (CDM).

In association with Boulting Environmental Services Ltd (BES) based in the UK, who help create cutting-edge cleanrooms, laboratories and other sophisticated environments, **PBSC**

contributed with clean room transfer hatches, vision panels and break out panels specially designed for the controlled environment whilst minimizing visible fixings with **PBSC's** flush designs.

Thus increasing production volumes within a suitable cleanroom environment.

**PBSC** with BES, contributed to Fresenius Kabi continual significant role in improving the lives of chronically and critically ill patients in the UK, making the business better and stronger, providing the best solutions.
